

Video Editor (2 Position)

Job Highlights

- In this position, you follow the project from start to finish. As a film/video editor, you'll manage material such as camera footage, dialogue, sound effects, graphics and special effects to produce a final film or video product. This is a key role in the post-production process and your skills can determine the quality and delivery of the finished result. You'll usually work closely with the users to achieve the desired end result.

Job Descriptions:

- Meet with clients to establish the desired feel and look for the video to be created
- Gather and transfer all forms of media into editing software and ensure each was updated in the correct format
- Operate computer editing systems and equipment used for video media and effects
- Establish a clear understanding of the storyline and purpose of the video's creation
- Create an initial proposed storyboard draft of the video to present to clients and receive approval before beginning to digitally alter video
- Improve video and sound quality using various video software
- Edit video to include preselected music, interviews, sound clips and other important aspects of the project
- Ensure the correct formatting and presentation for finalized videos according to client's specifications
- Other assigned task (if any)

Qualifications:

- Bachelor's degree in a production-related field (preferred)
- 3-5 years of video producing experience
- Proficiency with Adobe software, including Adobe Photoshop, Illustrator, Premiere pro and After Effects Design
- Professional mastery of video and audio editing software and programs
- Ability to multitask and work toward several milestones on various projects simultaneously
- Creative experience in filmmaking and videography
- Ability to understand the desired outcome of a project when meeting with clients and the ability to bring them to life
- Experience editing various video projects and inserting sound effects, music and transitions
- Proficient in creating concept boards and other visual representations of planned edits for video projects
- Excellent communication skills are required to have a solid understanding of project scope and implementation
- Ability to collaborate well with other creative professionals to supply instructors

Work location:

- ThaiOil public limited company (Sri racha)
